# Commercial Equipment

Why settle for sufficient when you can get superior...

With Jandy® equipment, you're getting a product that's easy to install on most pool pads, compatible with most existing setups and provides unparalleled performance and efficiency.

TRADE SERIES  
**EXCLUSIVE**

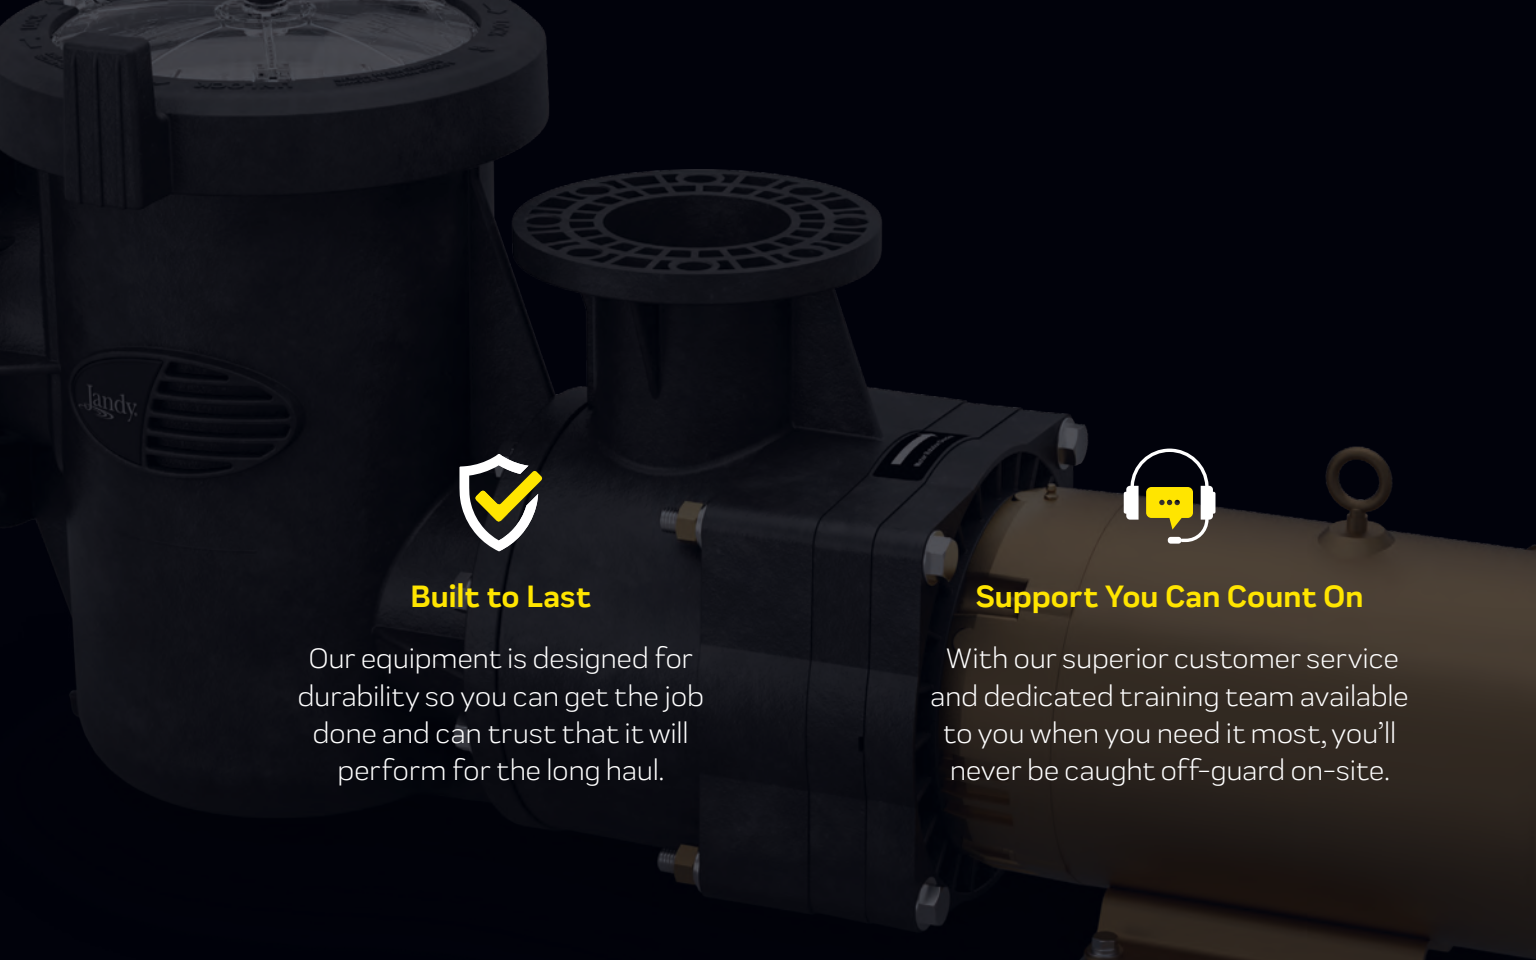

## Protecting Your Bottom Line

We've got your back. Our equipment is **NOT** available for purchase on the internet. Only through you.

## Drops In with Ease

Jandy equipment is engineered to easily replace most existing equipment on the pool pad with little to no plumbing adjustments. Jandy is a trade-up, not just a trade out.

### **Built to Last**

Our equipment is designed for durability so you can get the job done and can trust that it will perform for the long haul.

### **Support You Can Count On**

With our superior customer service and dedicated training team available to you when you need it most, you'll never be caught off-guard on-site.

# Why Jandy® JCP is the First Choice When Replacing a Pump

## The Right Dimensions

Jandy JCP pumps are dimensionally designed to match the suction and discharge ports of Pentair® EQ Series®, and C Series® pumps for the perfect drop-in fit.

## Jandy Innovation

Innovative radial seal on the strainer lid makes it easy to open with no tools while the integrated relief valve helps remove excess pressure or suction on the lid, making maintenance easier than ever.

### **Simple Service**

Jandy JCP pumps include a back pull-out design to allow for easy servicing without disturbing plumbing.

### **Easy Motor Replacement**

Replacement motors can be off-the-shelf types, so long as they have the same electrical ratings and certifications as the original OEM motor.

# Jandy® JCP Commercial Polymer Pumps

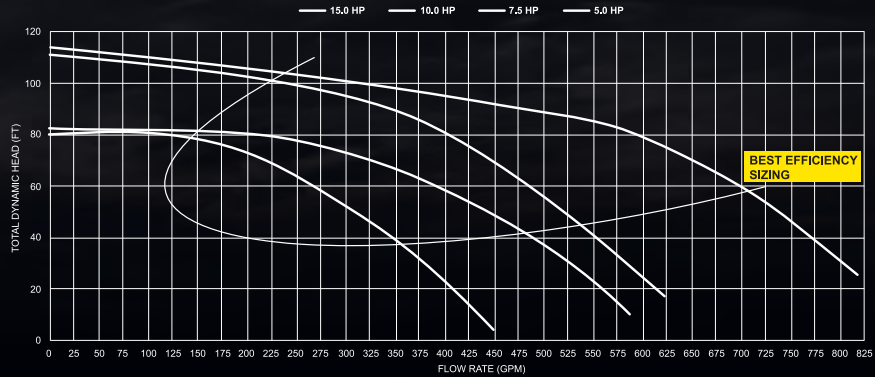

## Standout Features

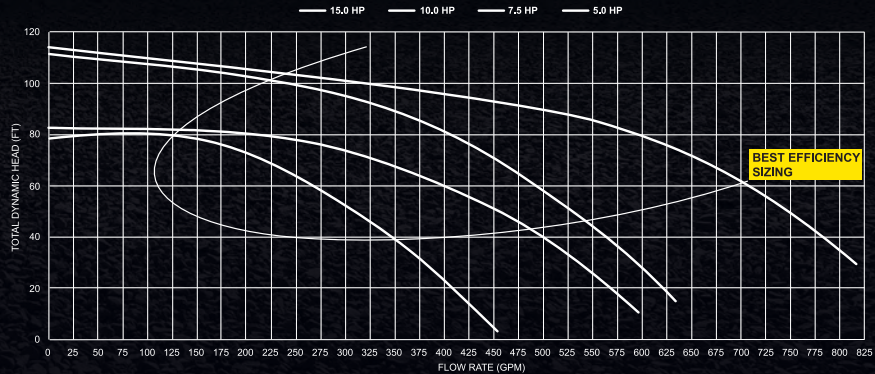

- » Faster priming than similar pumps\*
- » Innovative radial-seal strainer lid with integrated relief valve
- » Includes NEMA premium-efficiency motors and premium Aegis® Ring protection on all 3-phase models
- » Drop-in replacement for EQ and C competitive pumps
- » Models with strainers are self-priming
- » NSF-50 listed

\*Based on internal testing of similar Jandy and competitor pumps. Priming speed varies depending on the pump.
